PROJECTS

Major Projects:

1. Personal Portfolio Website:

Developed a responsive portfolio showcasing skills, projects, and contact details using HTML, CSS, Bootstrap, and JavaScript. Integrated PHP for contact form handling and Laravel for backend management.

2. E-Commerce Website:

Built a fully functional e-commerce platform with user authentication, product management, cart, and payment gateway integration. Used Laravel for backend, PHP for server-side logic, and Bootstrap for UI design.

3. **YouTube Clone:**

Developed a YouTube prototype with a responsive UI using HTML, CSS, Bootstrap, and JavaScript. sidebar navigation.

4. **Flipkart Clone:**

Designed an e-commerce prototype replicating Flipkart's UI with product listings, system, and responsive layout using Bootstrap and JavaScript.

5. **Hotstar Clone:**

Built a streaming service prototype with a dynamic carousel, category-based content display.

Minor Projects:

1. **To-Do List:**

Designed a simple task management app with add, delete, and edit features using JavaScript for interactivity and local storage for data persistence.

2. **Music Player:**

Created a web-based music player with play, pause, next, previous, and volume control features using JavaScript and Bootstrap for a modern UI.

3. **Weather App**

Developed a weather forecast application using JavaScript and Open Weather API to fetch real-time weather data.

4. **Quiz App**

Designed an interactive quiz application with multiple-choice questions, a score tracker, using JavaScript.

5. **Trip Calculator**

Built a trip cost calculator that estimates total expenses based on distance, fuel cost, and vehicle mileage using JavaScript.

INTERESTS & HOBBIES

Singing and listening to music that fits the mood.
